

PROSTHETIC EVALUATION & MEASUREMENT FORM

Clinical intake form — to be completed by prosthetist / clinician

Section 1: Patient & Medical Overview

Patient Full Name

Date of Birth (DD/MM/YYYY)

Evaluation Date (DD/MM/YYYY)

Amputation Date (DD/MM/YYYY)

Cause of Limb Loss

☐ Vascular / Diabetes ☐ Trauma ☐ Cancer ☐ Congenital

Section 2: Amputation & Damage Level

Lower Limb (Leg / Foot)

☐ Partial Foot (toes or midfoot section) ☐ Transtibial (below-knee amputation)
☐ Transfemoral (above-knee amputation) ☐ Hip Disarticulation / Hemipelvectomy (pelvis level)

Upper Limb (Arm / Hand)

☐ Partial Hand / Finger (digits or partial palm) ☐ Transradial (below-elbow amputation)
☐ Transhumeral (above-elbow amputation) ☐ Shoulder Disarticulation / Forequarter (full shoulder removal)

Section 3: Residual Limb Measurements

Limb Shape Profile

☐ Cylindrical ☐ Conical ☐ Bulbous ☐ Irregular

Residual Limb Length (cm)

Sound Limb Length (cm)

Circumference Timeline (taken every 5 cm down from the joint line)

At Joint Line (cm)

Interval 1 — 5 cm down (cm)

Interval 2 — 10 cm down (cm)

Distal End / Tip (cm)

Section 4: Functional Mobility Assessment (K-Levels)

- ☐ **Level K0:** Cannot safely transfer or walk; prosthesis is for cosmetic use only.
- ☐ **Level K1:** Household Ambulator (can use device for simple, flat indoor walking or transfers).
- ☐ **Level K2:** Limited Community Ambulator (can navigate basic outdoor curbs, steps, and uneven ground).
- ☐ **Level K3:** Community Ambulator (can walk at changing speeds, manage vocational needs, and exercise).
- ☐ **Level K4:** High-Activity User (demands high-impact movements, sports, or rigorous child play).

Section 5: Lifestyle Goals & Field Notes

Primary Daily Goals / Functional Requirements

Additional Field Notes

Clinician Name

Signature / Date
